

# Introduction to Cybersecurity

Introduction to Cybersecurity is a self-paced, certified 15-hour course with certificate after passing a final assessment. Cost £40 – paid via ParentPay. You can study online, at home or in the Saturday morning classes, taking the final assessment in the CISCO academy (room 46a).

The course explores the broad topic of cybersecurity in a way that matters to you. Learn how to protect your personal data and privacy online and in social media, and why more and more IT jobs require cybersecurity awareness and understanding.

- Learn what cybersecurity is and what it means for you personally and professionally.
- Learn how to be safe online by understanding the most common threats, attacks and vulnerabilities.
- Find out how businesses protect their operations from cyber attacks and why jobs are growing.
- Study at your own pace and reinforce your understanding with activities and quizzes.
- Connect with the global Cisco Networking Academy community.

## Course Contents:

Pre-test	Chapter 3: Protecting Your Data and Privacy
Chapter 1: The Need for Cybersecurity	Chapter 4: Protecting the Organisation
Chapter 2: Attacks, Concepts and Techniques	Chapter 5: Will your Future be in Cybersecurity?
