PHOTOGRAPHY AND PUBLICATION CONSENT FORM

Rationale for use:

Occasionally, we take photographs of the pupils, because as a school we are very proud of the achievements of all of our pupils, and we want to be able to celebrate these achievements both within Kingsbury High School and with others. We may also want to report on special events which involve our pupils, such as visits from well know people and involvement in activities such as sports. We may use these images in our publicity or the school's prospectus or in other printed publications as well as on our website. We may also make video or webcam recordings for school-to-school conferences, monitoring or other educational use.

From time to time, our school may be visited by the media who will take photographs or film footage of a visiting dignitary or other high profile event. Pupils will often appear in these images, which may appear in local or national newspapers, websites or on televised news programmes. When these have been submitted to or taken by the media Kingsbury High School has no control over these.

We have put the following measures in place to protect your child:

- The aim of the photographs and videos is to celebrate your son's and daughter's achievements and share this through our website, social media platforms and published media
- We will always ensure that anything we publish shows your child in a true light
- We will ensure all pupils are dressed appropriately when taking photographs and videos
- We will store images on the school's central computer network with access controlled by passwords restricted to authorised employees of Kingsbury High School and protected by modern firewall software.
