20 January 2020

Dear Parents,

This year we have begun a review of our curriculum to ensure we continue to provide the best quality education for your children. As part of this review we are looking at our provision for students in Key Stage 3 (Foundation Stage).

We, therefore, must consider whether the current length of our Key Stage 3 curriculum (currently 2 years) provides sufficient time for students to cover all of the content in the National Curriculum before the curriculum necessarily narrows as students begin their GCSE courses.

This means **we will be postponing the Year 8 Options Fair which is calendared for 11 February 2020**. I will write to you again to update you on our findings.

This does not affect the Year 8 Parents' Evening on the 4 February which will take place as normal.

If you have any comments or queries regarding this, please do not hesitate to contact me.

Yours sincerely,

Anton McLean  
Head of School
